THE NARAYANA ADVANTAGE

Certain things catch your eye, but pursue only those that capture the hearts...

nDigital – A DIGITAL LEARNING ECO-SYSTEM

This is a 360° academic tool that gives students an extra advantage. Right from learning and instruction to testing and evaluation, Narayana has transformed the key elements of education with nLearn.

This is a state-of-the-art child safety initiative by Narayana. Under this, we provide parents real-time bus tracking facility and regular notifications to ensure their child's safety.

DIGITAL CLASSROOMS

The best way to understand a concept is to visualise it. With our digital classrooms, we help students learn over 4000+ lessons with special keyword decks, glossaries for important topics, interactive animated videos and quizzes on every lesson.

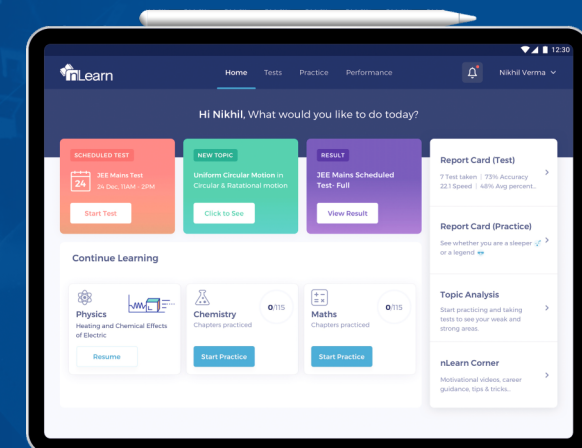

nConnect is a comprehensive parent-teacher communication app with its sole focus on being parents keeping up with their children's progress and schedule, making their busy lives more manageable and convenient.

3D LABS

With our state-of-the-art 3D labs, we help students visualise difficult problems. Students can explore over 2000+ topics using stereoscopic animations and interactive simulations, thus enjoying a qualitatively better experience.

ROBOTICS

- 360° STEM education
- Aligned with academic curriculum for grades VI to IX
- Participate in international Robotics Olympiads and enroll for internships
- An opportunity to complete a certification course from Robox, Singapore

JEE (Main & Advanced) Programs

Two-Year Integrated Classroom Program (TYCP)–2024 (ONLINE/OFFLINE)

For X Appeared / XI Studying Students

(I) Two Years Regular Integrated Program (ii) Two Years Weekend Integrated Program (iii) Two Years Integrated Apex Program

This program prepares the students for JEE-Advanced and JEE Main to give best desired output and performance. This 480-hours course is divided into four phases. It includes comprehensive training, practice sessions in the form of tutorial classes and also final review for IIT-JEE-2023 in the form of revision classes. This course will be completed by December 2022.

Narayana Group, always keeps itself abreast with the latest changes announced by the HR Ministry and IIT-JEE council. Hence CBSE has always been the part of our academic curriculum and teaching pattern. We have tried to impart more focused inputs to our students by re-structuring our course curriculum. This will take care of all the needs of the students for enhanced performance in XII Boards and competitive exams with good marks.

Two Year Regular Integrated Program	3 to 4 Days/Week	March / April June / July
Two Year Weekend Integrated Program	2 to 3 Days/Week	
Two Year Integrated Apex Program	6 Days/Week	
Two Year Spark Program (only for Scholar Students)	6 Days/Week	

One-Year Classroom Programme - JEE 2023 (ONLINE/OFFLINE)

For XII Studying / XII Pass Students

For XII studying students: This is an integrated course in which students are taught in a systematic way, based on the pattern of JEE (Main & Advanced) along with Board examination.

For XII pass students : This comprehensive course includes classroom teaching. The course is divided into 4 units and covers the entire syllabus of JEE (Main & Advanced).

One Year Regular Integrated Program (XII Studying)	3 to 4 Days/Week	April / May June / July
One Year Repeater / Target Course (XII Pass)	4 to 5 Days/Week

NEET PROGRAMS

Two-Year Integrated Classroom Program (TYCP)–2024 (ONLINE/OFFLINE)

For X Appeared / XI Studying Students

(i) Two Years Regular Integrated Program (ii) Two Years Weekend Integrated Program (iii) Two Years Integrated Apex & Spark Program.

You can't fall if you don't climb, but there's no joy in living your whole life on the ground.

Our Two Year Integrated Classroom Program is an ideal course for providing a sound foundation in class XI. It strengthens the base of the students as it is a known fact that all the competitive exams contain more than 50% questions from class XI syllabus. This is a 700-hours integrated program comprising of 8 units. It is divided into two academic sessions (4 units in each session). In this course students are thoroughly prepared for CBSE as well as NEET. During the first academic session the entire syllabus of class XI is covered integrating the level of the board and the competitive exams. Regular class tests are conducted on objective and subjective pattern to evaluate the performance of the students, and the subsequent feedback is sent to the parents at regular intervals.

Two Year Regular Integrated Program	3 to 4 Days/Week	March / April June / July
Two Year Weekend Integrated Program	2 to 3 Days/Week	
Two Year Integrated Apex Program	6 Days/Week	
Two Year Spark Program (only for Scholar Students)	6 Days/Week	

One-Year Classroom Programme – NEET 2023 (ONLINE/OFFLINE)

For XII Studying /XII-Pass Students

Challenges are what make life interesting and overcoming them is what makes life meaningful.

This is an integrated course in which students are taught in a systematic way, based on the pattern of NEET along with Board examination. The entire course of class XII will be completed by the last week of October, 2022. Exhaustive revision for class XI will take place from the first week of November, 2022 up to the last week of December, 2022. Students will then be given time for self-study and for brushing up fundamentals taught.

This course is divided into 4 units which includes 480 hrs. of classroom interaction, regular tests. Each unit is followed by a unit test and in between each unit test, regular tests on covered topics are taken to evaluate the performance of the students and also to expose them to a competitive environment. This course also covers the syllabus of class XII and eliminates the need for additional tuition. All topics are covered from the basics to in-depth level. After the Board examinations, students will appear for the final round of preparation through Narayana's All India Grand Test Series, and compete with meritorious aspirants from all over India.

One Year Regular Integrated Program (XII Studying)	3 to 4 Days/Week	April / May June / July
One Year Repeater / Target Course (XII Pass)	4 to 5 Days/Week

* The class timings other than the vacations will be after school hours. During vacations the classes can be held in the morning hours as well.

* Course availability vary from branch to branch.

Mode of Admission:
Admission-cum-Scholarship Test.

Batch formation in the above programme is subject to requisite number of students (essential for a competitive batch size) qualifying in the admission test.

SOLID FOUNDATION GIVEN BY NARAYANA MAKES STUDENTS WORLD CHAMPIONS
IN MATHS, PHYSICS, CHEMISTRY, BIOLOGY, ASTRONOMY, ENGLISH & CYBER OLYMPIADS

THE STEPS TO SUCCESS.

The world of many opportunities starts at Narayana. Young talent is nourished and nurtured right from the primary stage. With ever-evolving technology, the way education is imparted has also considerably evolved. The foundation for a successful career after Grade XII is carefully laid right from Grade VIII, giving the students all the right ingredients for a bright career through the IIT Olympiad Program.

IIT-Olympiad Training program will be conducted in four stages.

STEP 1

A micro-level planning for teaching a particular topic is done by identifying the basics and fundamentals of the topic. The concepts and learning objectives to be mastered and achieved are then charted out along with the linked sub-topics and their technological enrichment.

STEP 2

The teaching of the prerequisites, main concepts and the linked sub-topics are done from the prescribed text books and study materials with more illustrations and examples using our e-learning modules.

STEP 3

The objective of mastering the concepts is achieved by making the students to solve problems on each concept from level-1 to level-5 which include the questions from previous competitive exams and various other International reference books.

STEP 4

At the end of the topic, students are made to solve the cumulative assignments which consists of problems based on multiple concepts to test their understanding of the concept.

Sub groups: In every class, the students are divided into five sub groups namely E1, E2, E3, E4 and E5 based on their performance in the series of tests conducted on fundamentals in the beginning of academic year. Each sub group is headed by the respective subject associate faculty who will microscopically cater to the academic needs of the students by following the step up and step down approach.

Mind Space increasing programs: Special orientation on Speed Mathematics (Vedic Mathematics), Olympiad training and Mental Ability.
